In association with France Aotearoa Science,
Technology and Innovation (FAST!)
and the Embassy of France in New Zealand

Weather forecasting in a time of Climate Change

A talk by Pierre Foucaud
& Grégoire Pigeon
MetService – Te
Ratonga Tirorangi

WEDNESDAY 10 APRIL
FROM 5.15PM FOR
A 5.30PM START

@ Southern Cross
39 Abel Smith Street (the Guest Room)

A wide range of drinks and food will be available for purchase
at the bar - All welcome - In English - Some French may occur!

Pierre studied at the French Navy School of Meteorology and Oceanography in Toulouse. He came to New Zealand in 2016 from Singapore and now works as a marine consultant for Met Service in Wellington. Pierre has 30 years of experience in operational meteorology and oceanography.

Gregoire is an experienced atmospheric Scientist and weather services manager. He is skilled in numerical weather prediction system development and weather services, with experience in Mathematical Modelling, Physics, and Data Analysis with a PhD on Atmospheric sciences from Université Paul Sabatier in Toulouse after a Master's degree in agronomy. He came to New Zealand to join the Met Service in 2018, where his role is to develop the land surface module for the Weather Research and Forecasting atmospheric numerical model for New Zealand.

Organizing Committee:
Dr Steve Thompson, Chair
Dr Geoffroy Lamarche
Dr Caroline Holden
Marleen van Roosmalen
